

Integrazione del proprio profilo di CryptoHelper

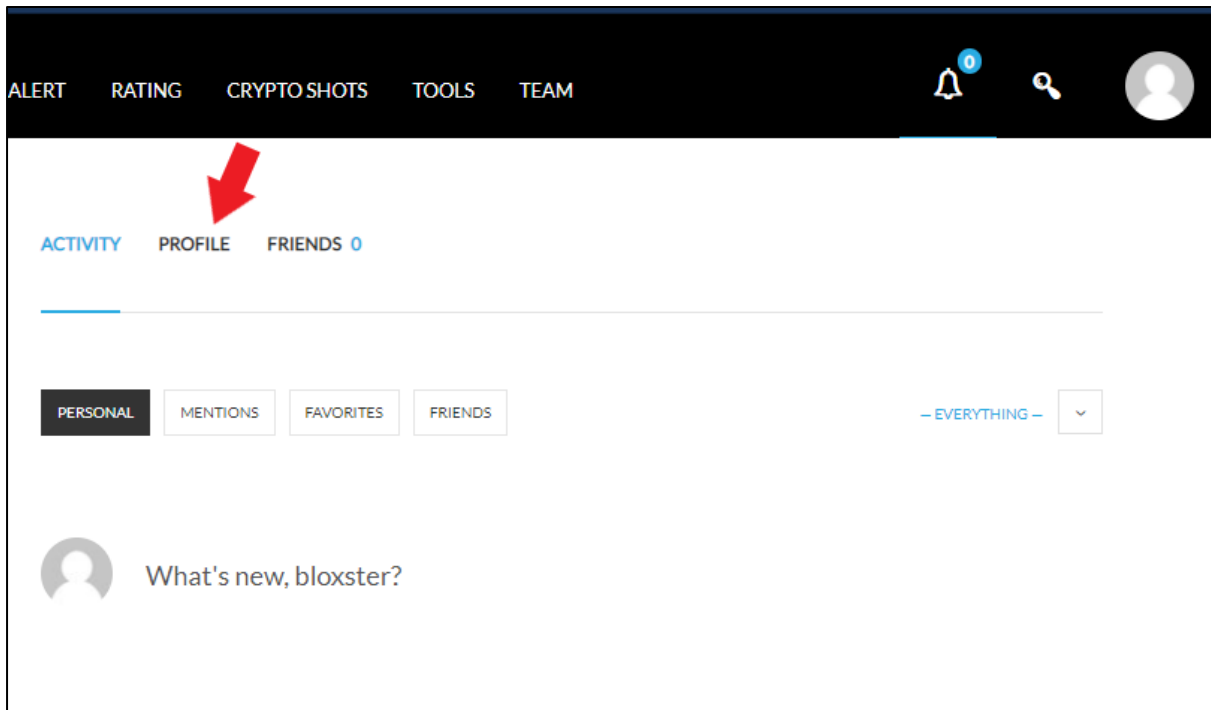

Ai fini della fatturazione fiscale dobbiamo gentilmente chiedervi di integrare il vostro profilo inserendo la vostra **nazionalità**, senza che questa sia visibile pubblicamente.

In questa guida vi spieghiamo brevemente come procedere.

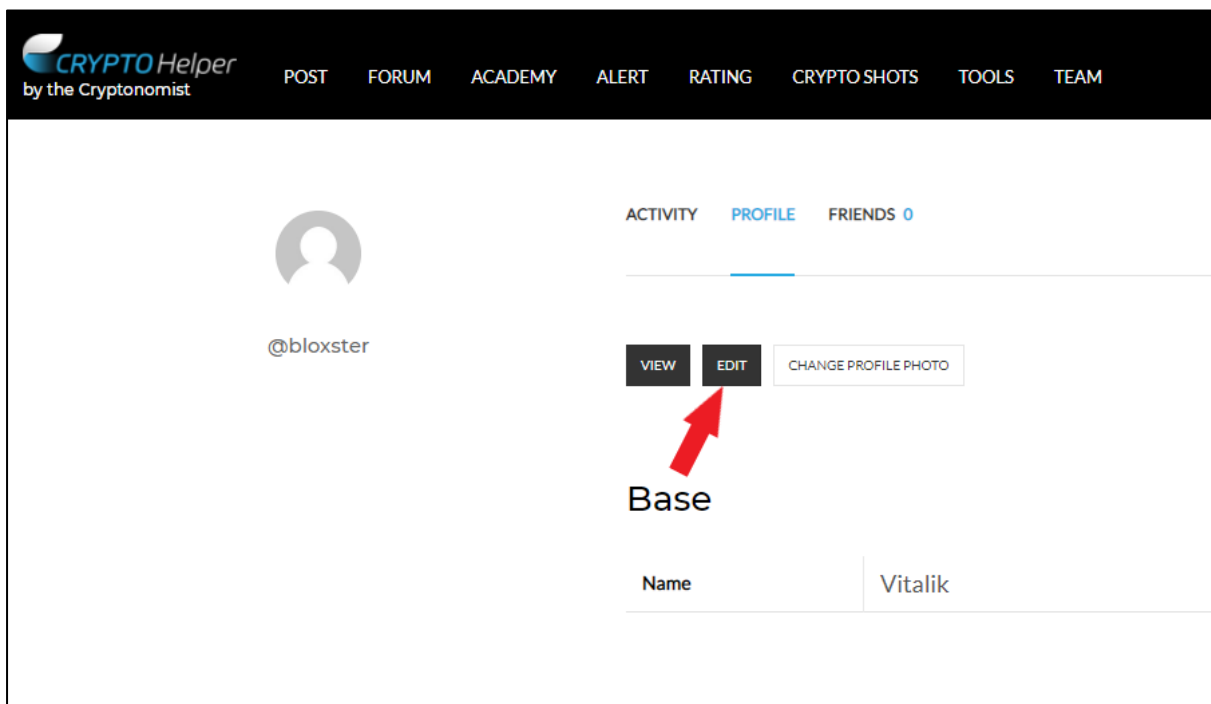

Fate il login su cryptohelper.it come normalmente e cliccate sull'**avatar del vostro profilo** in alto a destra (non aprite il menu sottostante).

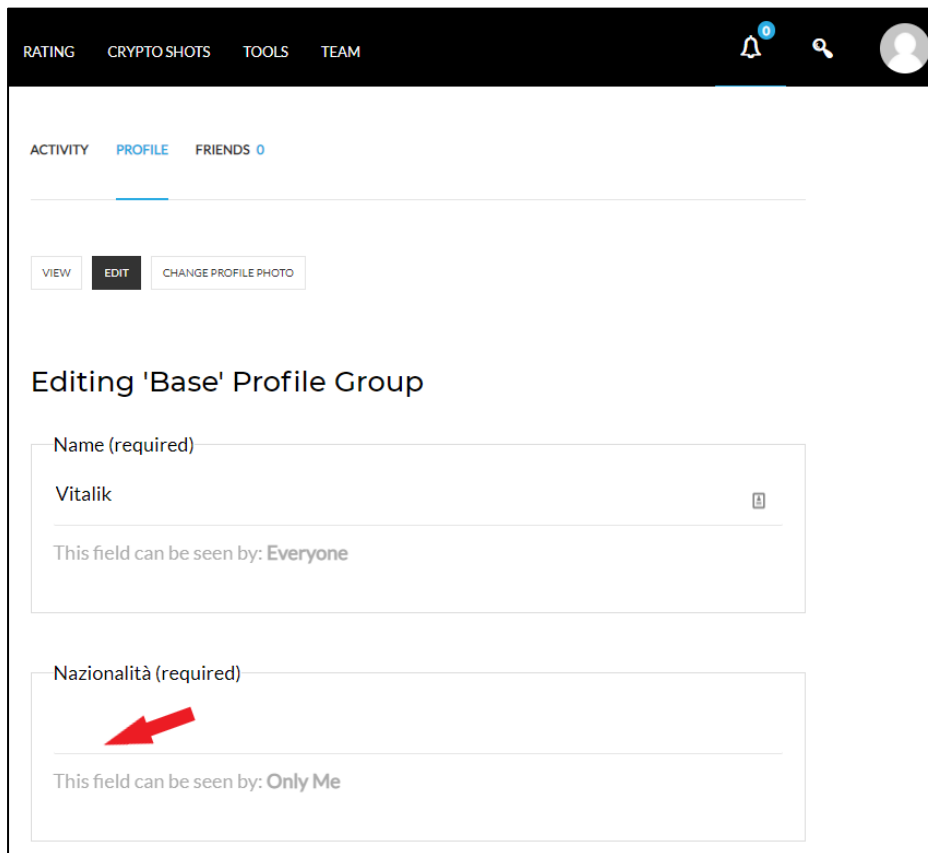

Cliccate ora su "**PROFILE**".

E cliccate su "**EDIT**".

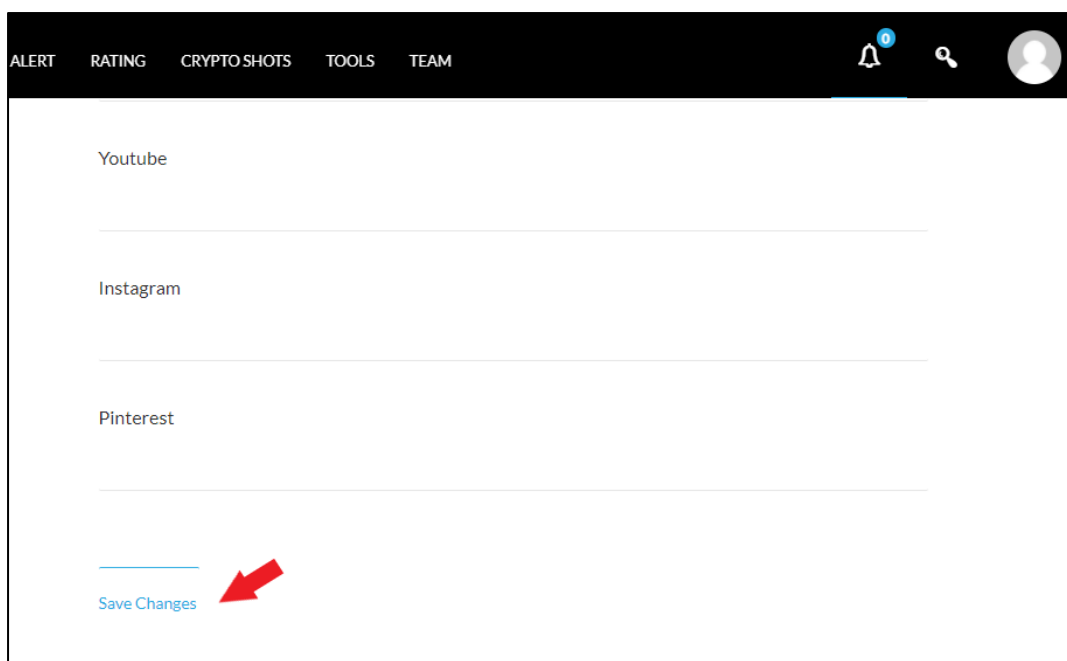

Inserite ora la vostra **nazionalità** nel campo apposito.

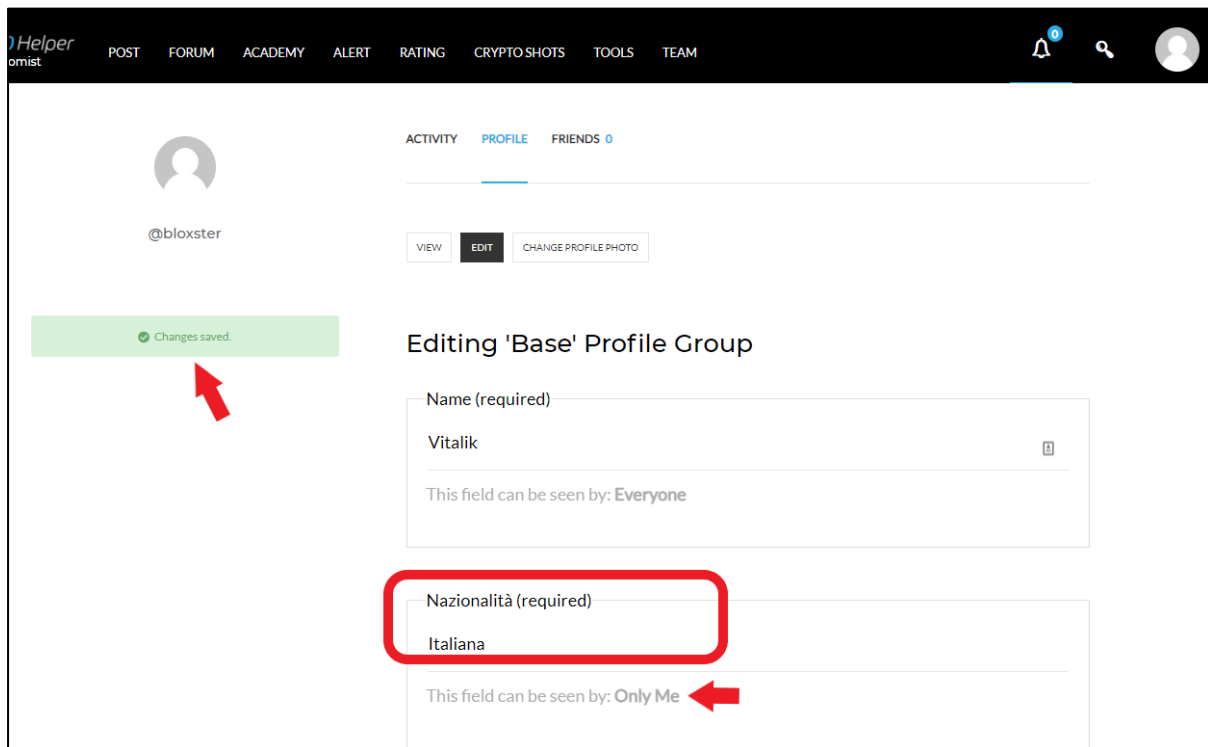

The screenshot shows a user profile editing page. At the top, there are navigation links: RATING, CRYPTO SHOTS, TOOLS, and TEAM. On the right, there are icons for notifications, search, and a profile picture. Below the navigation, there are tabs for ACTIVITY, PROFILE (selected), and FRIENDS 0. Under the PROFILE tab, there are buttons for VIEW, EDIT, and CHANGE PROFILE PHOTO. The main heading is "Editing 'Base' Profile Group". There are two input fields: "Name (required)" with the value "Vitalik" and a lock icon, and "Nazionalità (required)" which is currently empty. A red arrow points to the "Nazionalità" field. Below each field, it indicates visibility: "This field can be seen by: Everyone" for the name and "This field can be seen by: Only Me" for the nationality.

Salvate poi le modifiche andando in fondo alla pagina e cliccando su **“Save Changes”**.

The screenshot shows the bottom portion of the profile editing page. It includes social media links for Youtube, Instagram, and Pinterest, each with an input field. At the bottom left, there is a "Save Changes" button. A red arrow points to this button.

Per conferma vedrete la scritta verde “changes saved” (cambiamenti salvati).

Per preservare la vostra privacy, il campo “**Nazionalità**” che avete appena compilato è impostato per essere visibile solo a voi stessi.
